

Car Check / Car Value Report

Name :	Tersia van Rooyen
Date Requested :	03-12-2010 14:07
TransUnion Reference No :	19889648

Thank you for your enquiry. The vehicle description you have submitted has been checked against our records, the result of the search is displayed below. Please check the confirmation carefully to ensure that you enquired on the correct VIN / Engine number.

To assist you in understanding the report, we have provided explanations within each section.

Should you have any queries please contact TransUnion on 0861 482 482 from Monday to Friday 08h00 - 17h00 and Saturday 08h00 - 13h00.

SECTION A - CAR CHECK REPORT

INFORMATION VERIFICATION

This is the information returned by TransUnion's database in response to the vehicle information you supplied. You will receive one of three results - Match, No Match or Partial Match - against the VIN and Engine details that you supplied.

TransUnion Reference Number: 19889648

Date and Time of Enquiry: 03-12-2010 14:07

Description	Information Supplied	Information Verified
Manufacturer:	MERCEDES BENZ	MERCEDES BENZ
Model Description:	ML 55 AMG F/L	UNKNOWN MODEL
Vin OR Chassis Number:	WDC1631752A340439	MATCH
Engine Number:	11396530363931	MATCH
Registration Number:	NMM178GP	
Colour:	UNKNOWN	TITANITE RED
* Year of Manufacture:	2002	UNKN

* Year of Manufacture - The year of manufacture and the year of first registration normally coincide. If not, the difference is caused by vehicles being manufactured/imported late in one year but being sold and first registered as new in a later year.

VEHICLE RECORDED

Information Registered by Manufacturer

The Enquiry result gives the overall search result for the vehicle. You will receive one of four possible results:

Vehicle Recorded - Positive match

VIN Match Only - Positive match (full VIN) Engine not matched.

Vehicle Not Recorded - Negative match on both VIN and Engine (We have no record of such a vehicle).

Incomplete - Negative match on VIN, Engine matched. (For negative matches we advise caution and further investigation).

SECTION B - ADDITIONAL INFORMATION REGISTERED

This confirms that the information, legal status and origin of the vehicle are accurate. It confirms that this information has in fact been registered by either the Manufacturer or the Importer.

1. FINANCE

Considering that an estimated 60% of new cars sold every year in South Africa are purchased using some form of finance agreement, outstanding finance is a major part of the Car Check Report. With over 2.7 million current financial agreements registered on our database, you need to validate if the vehicle you want to buy is not subject to one of them. If it is subject to a financial agreement, you need to ensure that arrangements have been made to settle the existing finance.

Finance House	Finance Branch	Account/Agreement Number	Contact Number
THE MOTOR FINANCE CORPORATION	2820	POOE JL10102355	0118799000 Extension

History

NOT RECORDED

2. FINANCE HISTORY

This is a list of finance interest previously recorded on the vehicle, by agreement type, that has been 'settled'. This means that the finance house in question financed the vehicle from the 'Start Date' but the vehicle is no longer financed by that particular financial institution. The finance interest came to an end at the stipulated 'End Date'.

NOT RECORDED

3. STOLEN INTEREST

This section confirms whether the vehicle in question is sought by the South African Police Services (SAPS). Considering that between 3 to 4.5% of all vehicle enquiries display a SAPS interest, it is critical to ensure that the vehicle you are buying is not subject to any SAPS interest. Should you believe that any SAPS information listed here is incorrect, please obtain a SAPS clearance on the vehicle prior to purchasing. A SAPS clearance can be obtained at your local SAPS station. Remember to have the vehicle details (VIN, engine, registration) and your South African ID on hand when requesting a SAPS clearance.

Pending. Updated Car Check report with stolen interest indicator will only be available after 48 hours.

4. ALERT INTEREST

This confirms that the owner has attached a 'Security Alert' to the vehicle. Due to the nature of their everyday use, some vehicles are prone to higher levels of risk, e.g. fleet cars, demonstration and forecourt models. Others are prone to abnormal risk, e.g. vehicles in transit as well as vehicles of a high value and demand (exclusive vehicles, trucks with consumer cargo or utility). A Security Alert status registered on high-risk vehicles acts as a pre-emptive deterrent. All enquiries made about a particular vehicle will result in the registered owner of the vehicle being advised of the enquirer's identity.

NOT RECORDED

5. ACCIDENT REPAIR QUOTE DATA

Accident repair quote data indicates whether the vehicle has had a damage assessment as part of an insurance claim. Vehicles not subject to an insurance assessment are not reported on by Transunion.

Source	Assessment Date	Assessment Number	Estimated Repair Cost
PAD	2009-03-01	48104446	R 0.00

6. MICRODOT

The Microdot Enhanced Security Application is a vehicle marking system that applies thousands of dots, each the size of a grain of sand. The dots are invisible to the naked eye and virtually impossible to remove, which makes them an enhanced vehicle-theft deterrent. If the vehicle you are enquiring upon has a Microdot listing, please use the details listed in the report to contact the relevant institution and determine the vehicle's current status.

NOT RECORDED

7. REGISTRATION NUMBER HISTORY

This lists the last three registration numbers received by TransUnion through enquiries previously made on the vehicle.

NOT RECORDED

8. ENQUIRY HISTORY

This lists the last three enquiries made on the vehicle by date to show you how many times the vehicle has been enquired upon.

Source	Transaction Date
ENQUIRY	2010-12-03
ENQUIRY	2010-12-03
ENQUIRY	2010-12-03

9. MILEAGE HISTORY

This lists the last three recorded kilometer readings (odometer) to show you the vehicles trend. This allows you to determine if there are any discrepancies in the odometer reading that you may wish to clarify with the vehicle owner. While there may be a legitimate reason for discrepancies, a lower odometer reading compared to previous odometer readings could indicate that there has been some interference with the odometer.

Source	Mileage	Transaction Date
ENQUIRY	1	2010-12-03
ENQUIRY	105000	2010-12-03
ENQUIRY	105000	2010-12-03

SECTION C - CAR VALUE REPORT

1. VEHICLE DETAILS

TransUnion Reference Number:	19889648
Vehicle Make:	MERCEDES-BENZ
Vehicle Model:	VITO / VIANO / ML / GL
Vehicle Derivative:	ML 55 AMG F/L
Year First Registered:	2002
Odometer Reading:	1 kms

2. VEHICLE VALUATION DETAILS

Trade Value (Rand)

From R 182087.36 to R 194093.12

Retail Value (Rand)

From R 203845.46 to R 219525.88

Regional popularity, supply and demand and conditions of use and operation could have a varying effect on the value of the vehicle. These variations influence the value if you had to trade the vehicle in at a dealership or had to sell it to a private individual. The values provided by mytransunion.co.za should be seen as a guide to what your vehicle is worth in the market. The values are not insurance settlement values or replacement prices and should not be treated as such. We recommend that you contact your vehicle insurer or broker for confirmation of your vehicle's insured value.
